ABOUT ME

- Focused and enthusiastic developer with a keen interest in web development and software development. By comprehensive exposure to the underlying concepts and applying them vividly to various projects, my love for these domains came into being. I am a passionate individual who thrives to build and apply algorithms to solve real-world industry problems.
- I have recently started start-up “Sanjeev Foundation which is a online classroom program with an aim to transform the future of learning. This website provides integration of courses where one can find all courses under one roof.
- Currently, we have 57 students who joined our company for learning coding in my organization. And also got many more projects within in a year, nearly 4 projects, have been done. These are done in 2020.
- Recently I have started with another start up “Sanjeev Solutions” in 2021 for designing web applications for business and commercial purposes and also working as a freelancer for some online projects.
- **SANJEEV TECH (Sanjeev Tech and Sanjeev Solution) these are my startups for freelancing work**
